PROFESSIONAL OVERVIEW

Experienced **Senior Software Engineer** with 4+ years in developing web applications using **React.js**, **Angular**, and **TypeScript**. Skilled in building scalable UIs, integrating cloud solutions with **MS Azure**, and writing automated tests using **Playwright**. Proven track record of delivering high-quality solutions for enterprise clients like **Microsoft**, with a strong focus on performance, analytics, and clean code practices.

WORK EXPERIENCE

Senior Software Developer

Tech Mahindra | Feb/2024 – Present | Client - Microsoft

- Developed and maintained UI features using **AngularJS**, **TypeScript**, and **Angular 17** for Microsoft Teams Admin Center. Employers want to know what you've achieved. If possible, quantify what you have accomplished.
- Created and executed **end-to-end test suites** using **Playwright** to ensure application reliability.
- Collaborated with **Microsoft stakeholders** to gather requirements, resolve issues, and deliver complex features.
- Utilized **Microsoft Azure** for cloud integration and applied **data structures** to optimize app performance.

Software Developer

Allstate India | April/2021 – Dec/2023

- Built interactive and responsive UI components using **React.js**, **JavaScript (ES6+)**, and **TypeScript** for a data analytics platform. Highlight your accomplishments but don't exaggerate; they will ask questions from your resume during the interview.
- Integrated **Adobe Analytics** and **Adobe Target** to track user behavior and deliver personalized experiences.
- Designed and implemented RESTful **API integrations** using **Python (Flask, Django)** for seamless backend communication.
- Automated deployments using **Jenkins CI/CD** and maintained code quality with **SonarQube** for multi-environment releases.

EDUCATION

2020
BE (Electronics and Communication Engineering)
S. G. Balekundri Institution of technology, Belgaum

SKILLS

Frontend technologies

- AngularJS, Angular 17
- React.js, JavaScript (ES6+), TypeScript
- HTML5, CSS, Bootstrap, jQuery

Backend & Programming

- Java, J2EE, Hibernate
- Python (Flask, Django)
- Microservices Architecture

Build Tools & Packaging

- Webpack, Babel

Testing & Automation

- Playwright(end-to-end testing)
- Jest (unit testing)

DevOps & Version Control

- Jenkins (CI/CD pipeline)
- Git (version control)

Cloud & Infrastructure

- Microsoft Azure

Analytics & Personalization

- Adobe Analytics
- Adobe Target
- Adobe Marketing Platform

Project Methodologies

- Agile/Scrum

UI/UX Tools

- Figma(wireframe integration)

Code Quality & Security

- SonarQube
